

POWERHOLD

LATEX CARPET EDGE SEALER

Sellador del borde de la alfombra del látex

10

DESCRIPTION:

POWERHOLD 10 is a fast-drying, multi-use latex adhesive exceptionally effective for applying both plain webbing or pin type seaming tapes, replacing damaged carpet nap, securing carpet binding, patching carpets or other fabrics, sealing raw edges, reinforcing hand sewn seams and weak backings, coating the backs of throw rugs to reduce slipping hazards and many other purposes.

FOR INSTALLATION OF:

Carpet with the following backings; Action Bac®, Jute, Latex Unitary, Wovens, Rubber-Backed, and Urethane.

PRIOR TO INSTALLATION:

Powerhold 10 Latex Carpet Edge Sealer can be applied with a small brush or broadfelt scrap. Note: Care should be taken to avoid spilling the sealer on nap of carpet.

BACK SEAMING - spread adhesive the length of the seam, making sure you have even coverage. Scrape excess adhesive toward center of the seam; heavier ribbed carpet requires more adhesive. Unroll seaming tape the length of the seam and tack both ends. Smooth the entire length of the tape's surface to adhere tape and remove any wrinkles. Allow to dry.

FACE SEAMING - unroll face seaming tape the length of the seam and apply adhesive. Tape should be centered and tacked at both ends. Smooth seam against tape. Avoid too much pressure as you do not want to force adhesive into carpet face. Allow to dry.

CLEAN-UP: Adhesive may be removed from carpet while still wet by repeated sponging with warm water and detergent. If adhesive has dried on the carpet, use Powerhold 50 Solvent Cleaner. Do not allow solvent to soak into the carpet; it will destroy the adhesive bond.

COVERAGE:

900 linear feet of 1/8" bead (1/8" x 1/8" wide) per quart.

CAUTION:

DO NOT take internally. If swallowed, DO NOT induce vomiting. Call a physician immediately.

KEEP OUT OF REACH OF CHILDREN.

TECHNICAL SPECIFICATIONS

For Product No.: 10
Powerhold Trade Name: Latex Carpet Edge Sealer
VOC's: 36
Base: Natural Latex
Color: White to beige
Consistency: Low viscosity
Open Time: up to 30 minutes
Flammability: Non Flammable
Freeze Thaw Stability: Stable
Clean Up -
When Adhesive is wet: Warm soapy water
When Adhesive is dry: POWERHOLD Cleaning Solvent

PACKAGING

12 - 8 oz (0.24L) and 12 - 1 Quart (0.95L) White Plastic Bottles

SHELF LIFE

1 - Year when stored in original, unopened container

COVERAGE (APPROXIMATE)

Up to 900 linear feet of 1/8" bead per quart
