

POWERHOLD

UNIVERSAL EDGE/SEAM SEALER

Sellador universal del borde/de la costura

DESCRIPTION:

POWERHOLD 40 is a polymer fortified adhesive and has been specially developed for seaming all types of carpets including vinyl back carpets. It can also be used to seal cut edges of carpet to prevent raveling.

FOR INSTALLATION OF:

Carpet with the following backings; Action Bac®, Jute, Latex Unitary, Wovens, Rubber, Urethane, and Vinyl.

PRIOR TO INSTALLATION:

All surfaces must be clean, dry and free of dust, wax or any type of polish and any substance or chemical that would interfere with a good bond. For best results, the installation site, floor covering and adhesive should be 65°F (18°C) or above for 24 hours before, during and after the installation.

INSTALLATION INSTRUCTIONS:

1. Prepare carpet according to manufacturer's instructions.
2. Apply a bead of sealer along the carpet vinyl edge with an adhesive applicator bottle. Apply adhesive to only one side of carpet.
3. Complete the seam by butting both sections of the carpet together while the adhesive is still wet (within 5-10 minutes).
4. If the sealer thickens, add a little water and stir. This will reduce the consistency and make it easy to apply.
5. Smears of sealer on the carpet surface are easily cleaned within 10 minutes by rubbing with a clean cloth wet with warm soapy water. Avoid soaking carpet with water. Do not pour soapy water directly on carpet. If adhesive has dried on the carpet, use Powerhold 50 Solvent Cleaner. Do not allow solvent to soak into the carpet.

CAUTION:

Use with sufficient ventilation. Keep container closed when not in use.

DO NOT take internally. If swallowed, DO NOT induce vomiting. Call a physician immediately.

KEEP OUT OF REACH OF CHILDREN.

TECHNICAL SPECIFICATIONS

For Product No.: 40
Powerhold Trade Name: Universal Edge/Seam Sealer
VOC's: Negligible
Base: Latex polymer blend
Color: Cream
Consistency: Low viscosity
Open Time: up to 10 minutes
Flammability: Non Flammable
Clean Up -
When Adhesive is wet: Warm soapy water
When Adhesive is dry: POWERHOLD Cleaning Solvent

PACKAGING

12 - Pint (0.47L) and 12 - 1 Quart (0.95L) White Plastic Bottles

SHELF LIFE

1 - Year when stored in original, unopened container

COVERAGE (APPROXIMATE)

Up to 900 linear feet of 1/8" bead per quart
